### Fayette County Agriculture Cooperative Extension Service & Natural Resources Newsletter

**Cooperative Extension Service** 

**Fayette County Extension** 1140 Harry Sykes Way Lexington, KY 40504-1383 Phone (859) 257-5582 Email: fayette.ext@uky.edu http://fayette.ca.uky.edu/

June 2025

Hello all,

We officially reached Lexington's top five wettest springs on record at the end of May. With that being said, expect to see more fungal issues in your crops as we start to get into hot and humid weather in the coming weeks. I have included an article discussing two minor fungal diseases of corn that are expected to show up due to the wet weather and flooding. I have also included the links to the 2025 Corn and Soybean Fungicide Efficacy Guides.

The Federal Emergency Management Agency (FEMA) has also designated multiple counties in Kentucky as natural disaster areas due to the severe storms and flooding we have had. The USDA has issued emergency loans through the Farm Service Agency (FSA) to help producers meet various recovery needs. Please see the flyer in this newsletter for more information or contact the FSA office.

I hope that June brings some drier weather, so that you all may finish your planting and keep on with harvesting your hay. I do want to mention I will have limited office hours this month due to the Bluegrass Fair and our Annual Agriculture Agent meeting mid-month. However, I will still have access to email, so please do not hesitate to reach out with any questions or concerns.

allison Tucker

Allison Tucker Fayette County Extension Agent for Agriculture & Natural Resources allison.tucker@uky.edu (859) 257-5582

### UPCOMING EVENTS

June 5-15, 2025 ~ Lexington Lion's Club Bluegrass Fair; ■ Masterson Station Park; For more information, go online to https://thebluegrassfair.com/

June 23, 2025 ~ Equine Field Day; Endeavor || Farm, Versailles, KY; 4:00-8:00pm; Please see the flyer in this newsletter for more information and how to register for the event.

August 12, 2025 ~ Cost Share Opportunities on Horse Farms; Texata Farms, Versailles, KY 9:00am-1:00pm; Please see the flyer in this newsletter for more information and how to Il register for the event.

September 24, 2025 ~ 2025 Intermediate **Grazing School**; Woodford County Extension Office, Versailles, KY; Closer to the date of the || event, more details will be posted online at https://forages.ca.uky.edu/events

October 28, 2025 ~ 2025 KY Grazing Conference - East: Clark County Extension Office, Winchester, KY; Closer to the date of the event, more details will be posted online at https://forages.ca.uky.edu/events

The Fayette County Extension Office will be closed on Thursday, June 19<sup>th</sup>, in observance of Juneteenth

Buying Kentucky Proud is easy. Look for the label at your grocery store, farmers' market, or roadside stand.

The Fayette County Extension Office will be closed on Friday, July 4, 2025, in observance of Independence Day.

### From the Woods Today

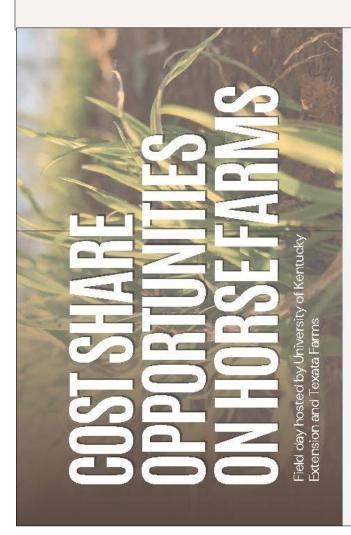

University of Kentucky Forestry and Natural Resources Extension is offering relevant information about woodlands in a weekly internet show. "From the Woods Today" airs live on **Wednesdays at 11:00am**. Links to the live shows are posted just prior to the show. https://forestry.ca.uky.edu/woods-today

### Forage Timely Tips: June

Source: **UK Forage News**, https://kyforagenews.com

- Continue hay harvests. Minimize storage losses by storing hay under cover.
- Clip pastures for weeds and seedheads as needed.
- Start to slow grazing rotations allowing for a longer recovery period.
- Use portable fencing to decrease paddock size and increase paddock number.
- Do NOT grazing below the minimum desired residual height.
- If present, johnsongrass can provide high quality summer forage when grazed or cut at a vegetative stage
- Crabgrass, a warm-season annual grass, can provide high quality summer grazing. If desired, remember crabgrass needs some annual soil disturbance to keep coming back.
- Begin grazing native warm-season grasses. Start at 18-20" and stop at 8-10".

### HIGHLIGHTS

- See conservation practices on a working farm
- On-site cost share applications
- Educational lectures
- Free to attend breakfast included!

Event Information:

## SAT., AUGUST 9, 2025

4665 Troy Pike, Versailles, KY 40383 From 9 AM - 1 PM

RSVP at https://CostShare.eventbrite.com or scan the QR code

# 

## Free to attend

Hosted by Endeavor farm

- Dinner included
  - Farm tour
- Educational lectures with experts

### Highlights Include:

- Improved pasture management Novel Endophyte Tall Fescue

  - Hay evaluation

# 23 JUNE 2025 | 4-8 PM

Endeavor Farm - 3110 Old Frankfort Pike, Versailles, KY 40383

RSVP at https://EndeavorFieldDay.eventbrite.com or scan the QR code

### **Corn Diseases Associated with Ponding**

Kiersten Wise, UK Extension Plant Pathologist, Kentucky Field Crops News

Recent rains and waterlogged soils have led to localized areas of ponding in emerged corn. Corn that is underwater briefly can recover but may be impacted by several diseases. Two minor diseases, crazy top and Physoderma brown spot may be problematic in areas where corn is underwater for 24-48 hours.

Crazy top is caused by a fungal-like organism called Sclerophthora macrospora. This pathogen survives in soil and infects young corn plants when there is excess rain or ponding in the spring. Crazy top symptoms are most often observed at tasseling when distorted and malformed tassels appear in areas that were ponded or saturated (Fig. 1). However, in some fields symptoms may be less diagnostic, and include stunting, tillering, thin, yellow leaves, and barren plants. More on crazy top can be found in the UK publication Crazy Top of Corn.

Physoderma brown spot is caused by the fungus *Physoderma* maydis which also survives in soil and residue and infects corn plants when plants are ponded or excess water remains in the whorl. The symptoms typically appear in the late vegetative stages through pollination and are characterized by very small chocolate brown or yellow lesions on the leaves and midrib (Fig. 2). The

lesions may appear in a banded pattern. The

Figure 2. Symptoms of Physoderma brown spot on leaves

(Picture courtesy Kiersten Wise)

Figure 1. Classic symptoms of crazy top in corn.

lesions can also be found on the stalk, leaf sheath, or ear husks. Read Physoderma Brown Spot of Corn for more information.

Crazy top and Physoderma brown spot rarely need management and are usually only problematic when water covers the whorl of the plant for short periods of time. Improving soil drainage and removing infected plants will reduce the disease risk for subsequent crops. Fungicides are labeled for Physoderma brown spot management, but symptoms are usually not severe enough to warrant preventative fungicide applications.

### **Publication Spotlight:**

### **Improving Kentucky Horse Pastures (AGR-281)**

For many horses, quality pasture can provide almost all nutrients needed for maintenance or light work for much of the year. For more information on pasture and grazing management, go on line to https://publications.ca.uky.edu/agr-281

If you would like a hard copy of AGR-281 mailed to you, please email allison.tucker@uky.edu.

### **Stakeholder Notification**

### Federal Emergency Management Agency Designates Multiple Counties in Kentucky as Natural Disaster Areas Due to Severe Storms, Straight-line Winds, Tornadoes, Flooding, Landslides and Mudslides

This Presidential disaster declaration allows the United States Department of Agriculture (USDA) Farm Service Agency (FSA) to extend much-needed emergency credit to producers recovering from natural disasters through <a href="mailto:emergency loans">emergency loans</a>. Emergency loans can be used to meet various recovery needs including the replacement of essential items such as equipment or livestock, reorganization of a farming operation, or to refinance certain debts. FSA will review the loans based on the extent of losses, security available, and repayment ability.

### 1. Triggering Presidential Designation M4864:

Impacted Area: Kentucky

<u>Triggering Disaster:</u> Severe Storms, Straight-line Winds, Tornadoes, Flooding, Landslides and Mudslides that occurred on April 02, 2025 and continuing

Application Deadline: 12/24/2025

### **Primary Counties Eligible:**

• **Kentucky:** Anderson, Butler, Carroll, Christian, Clark, Franklin, Hardin, Hopkins, Jessamine, McCracken, Mercer, Owen, Woodford

### **Contiguous Counties Also Eligible:**

- Illinois: Massac, Pulaski
- Indiana: Harrison, Jefferson, Switzerland
- Kentucky: Ballard, Bourbon, Boyle, Breckinridge, Bullitt, Caldwell, Carlisle, Edmonson, Estill, Fayette, Gallatin, Garrard, Grant, Graves, Grayson, Hart, Henry, Jefferson, Larue, Livingston, Logan, McLean, Madison, Marshall, Meade, Montgomery, Muhlenberg, Nelson, Ohio, Powell, Scott, Shelby, Spencer, Todd, Trigg, Trimble, Warren, Washington, Webster
- Tennessee: Montgomery, Stewart

### 2. Triggering Presidential Designation M4864 Amendment 1:

**Impacted Area**: Kentucky

<u>Triggering Disaster M4864 Amendment 1:</u> Severe Storms, Straight-line Winds, Tornadoes, Flooding, Landslides and Mudslides that occurred on April 02, 2025 and continuing

Continued from previous page: USDA Stakeholder Notification

Application Deadline: 01/14/2026

### **Primary Counties Eligible:**

• **Kentucky:** Breckinridge, Bullitt, Calloway, Daviess, Garrard, Grayson, Hancock, Hart, Henderson, Henry, Jefferson, Larue, Lincoln, McLean, Meade, Muhlenberg, Nelson, Ohio, Oldham, Pendleton, Powell, Trimble, Warren, Webster

### **Contiguous Counties Also Eligible:**

- Indiana: Clark, Crawford, Floyd, Harrison, Jefferson, Perry, Posey, Spencer, Vanderburgh, Warrick
- Kentucky: Allen, Anderson, Barren, Boyle, Bracken, Butler, Caldwell, Campbell, Carroll, Casey, Christian, Clark, Crittenden, Edmonson, Estill, Franklin, Grant, Graves, Green, Hardin, Harrison, Hopkins, Jessamine, Kenton, Lee, Logan, Madison, Marion, Marshall, Menifee, Mercer, Metcalfe, Montgomery, Owen, Pulaski, Rockcastle, Shelby, Simpson, Spencer, Taylor, Todd, Trigg, Union, Washington, Wolfe
- Ohio: Clermont
- Tennessee: Henry, Stewart

### More Resources

On farmers.gov, the <u>Disaster Assistance Discovery Tool</u>, <u>Disaster Assistance-at-a-Glance fact sheet</u>, and <u>Loan Assistance Tool</u> can help you determine program or loan options. To file a Notice of Loss or to ask questions about available programs, contact your local <u>USDA Service Center</u>.

FEMA offers different assistance programs for individual citizens, public groups including government agencies and private nonprofit organizations. To find the FEMA help you need following a disaster event, visit <a href="fema.gov/assistance">fema.gov/assistance</a>.

### University of Kentucky BBQ Basics Program

Do you want to step-up your BBQ game or do you want to learn how to BBQ? The University of Kentucky BBQ Basics is the program you need to go from grilling to BBQing and become the King/Queen of the Cul-de-sac. Take a tour of the major BBQ regions of the country and never leave the W.P. Garrigus Building parking lot. Learn from our local experts and sample the BBQ. Come hungry and leave full. We will end the evening at the UK James B. Beam Distillery on campus for a bourbon tasting and discussion on pairing bourbon, bourbon cocktails, and local beer with BBQ. The BBQ Tour: Make your own BBQ rub, California Tri Tip, Memphis Pork Ribs, North Carolina Pulled Pork, Kansas City Burnt Ends, Texas Brisket.

This program will meet on Friday, July 25, 2025, 2:00-7:00pm EDT, at the University of Kentucky Meat Science Laboratory and B52 of the W.P. Garrigus building. **Cost: \$75/person**, seating is limited to 30 people. Register online at https://www.eventbrite.com/e/university-of-kentucky-bbq-basics-tickets-1389485551689?aff=oddtdtcreator.

Questions/Contact: Dr. Gregg Rentfrow, Ph.D. (gregg.rentfrow@uky.edu; 859-257-7550)

### 2025 Corn and Soybean Fungicide Efficacy Guides

The ratings in these guides reflect the efficacy of a fungicide against a given disease and are not rating yield response to a fungicide. It is an applicator's legal responsibility to read and follow label directions. Updated tables include:

- Fungicide Efficacy for Control of Corn Diseases
   https://cropprotectionnetwork.org/publications/fungicide-efficacy-for-control-of-corn-diseases
- Fungicide Efficacy for Control of Soybean Seedling Diseases https://cropprotectionnetwork.org/publications/fungicide-efficacy-for-control-of-soybean-seedling-diseases
- Fungicide Efficacy for Control of Soybean Foliar Diseases https://cropprotectionnetwork.org/publications/fungicide-efficacy-for-control-of-soybean-foliar-diseases

### Weekly Kentucky Livestock and Grain Summary

### USDA Livestock, Poultry and Grain Market News

**Frankfort, KY** Monday, June 2, 2025 For Week Ending: Friday, May 30, 2025

Receipts: 12,124 Last Week: 14,820 Last Year: 10,357

Compared to last week feeder steers and heifers sold unevenly steady. Yearling steers and heifers were lightly tested with limited comparison. Demand was moderate to good for all feeder and yearling classes with best interest for long weaned thin fleshed calves suitable for grass. Slaughter cows and bulls sold mostly steady to 5.00 'higher with good to very good demand.
